

Supplemental Instruction Spring 2014 Sessions

Learn how to succeed in your math class.

Supplemental Instruction (SI) is an academic assistance program that utilizes peer-assisted study sessions. SI is a “free service” offered to all students in MATH0361, MATH0362 and MATH1314. The sessions are facilitated by “SI leaders”, students who have previously done well in the course and who attend all class lectures, take notes, and act as model students. SI is a non-remedial approach to learning as the program targets high-risk courses rather than high-risk students.

All sessions meet at the Math Resource Center located at ESEE1112
